

benefits

- ▶ Nutriliming agent
- ▶ Contains potassium (K) and magnesium (Mg)
- ▶ Finely ground product
- ▶ Enriched with micronutrients

fertilizing value

Total potassium (K ₂ O)	2.5 to 4%
Calcium (Ca)	25.0%
Magnesium (Mg)	4.5%
Sulphur (S)	2.0%
Manganese (Mn)	135 ppm
Zinc (Zn)	400 ppm

Average values from analysis, taking moisture into account

liming value

Agricultural Index*	72.0%
Real neutralizing capacity**	63.4%
Moisture (approximate)	20.0%

* Calculated in accordance with the method used to establish the index of agricultural lime at 100 mesh, dry matter

** Incubation test 2018, Université Laval, taking moisture into account

Specific weight
(not compacted 94.9 kg/hL)
(not compacted 59.4 lb/ft³)
